A common Goods and Services Tax (GST), one of the biggest reforms in recent time on the indirect taxes front in India was implemented effective 1st July 2017
We were GST Ready even before GST

We trained each of our distributors across the country on GST to ensure a seamless transition.

Our billing software was migrated to the GST billing platform.

During the transition, when uncertainties in the trade were high, we had multiple rounds of training for our field force in order to build confidence to enable the change.

We operated a control room – where all GST queries were resolved in order to facilitate smooth operations.
